Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I., Claims 1, and 6-27 are drawn to processing making a composition comprising a chemical within the Claim 1 chemical genus.

Group II., Claims 28-30 are drawn to a consumer product comprising a chemical within the Claim 1 chemical genus.

Group III., Claims 31 and 50 are drawn to the use of a chemical within the Claim 1 genus that undergoes cleavage to provide fragrances.

Group IV., Claims 32-49 are drawn to a compound that is embodied by the Claim 1 genus.

The inventions listed as Groups I., II., III., and IV., do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common feature between Groups I., II., III., and IV is the Compound (I).

Goto Hiroshi in *JP 02-2355683* discloses the chemical listed as “39” at the top of page 584. In this case, the species of Structure 39 in the reference anticipates Compound (I) of the Applicants’ Claims. Therefore there is no “special technical feature”. Thus, in accord with MPEP 1852 IV.; there is lack of unity *a posteriori* since the chemical genus is anticipated by *JP 02-2355683*.

A telephone call was made to Andrew N. Parformak (212 808 0700) on 11/3/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aaron Greso whose telephone number is 571-270-7337. The examiner can normally be reached on Monday through Friday, 07:35 to 16:35 Eastern, USA.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Sample can be reached on (571)272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
